Monthly Statement

Service	Cost	Funding	You Pay
		\$183	\$516
Remaining Balance		\$500	\$280

# Support at Home Monthly Statement

## What is the Support at Home Statement?

A monthly statement you, as care provider, share with your clients & their representatives. It's all about clear & transparent communications.

It details client expenses, so clients understand what they are billed for.

It summarises services provided, like personal care, meals, or household support.

It includes payments & balances, showing clients contributions & any remaining funds or amounts due.

## Why is it important?

Support at Home Statements are more than just a requirement. It's a way to communicate & build trust & transparency with clients & families.

These monthly statements provide a clear record of services, costs, & balances, helping people stay informed & manage their care with confidence.

Issued as mandated by the Aged Care Act, the goal is to improve readability & understanding to support the shared goal of helping older Australians live safely & independently at home for as long as possible.

Delivering clear, consistent customer communication is a key part of achieving this.
